

# GYE NYAME COIN ONE PAGER

## WHAT IS GNC?

Gye Nyame Coin is a smart asset developed in the decentralized Ethereum Blockchain, this Coin is an experimental and social nature. Gye Nyame Coin is a decentralized store of value that removes the limitation of fiat money with ever increasing value. The idea is to create a digital currency that will serve both the purpose of cryptocurrency and investment. Due to this, buying GNC is like investing your money into an investment company that will pay you monthly

## GNC MERCHANT SERVICES

There will be stores open across the world that people will go and pay their bills with 100% GNC. At GNC merchants center, you can pay your water bills, electricity bills, mobile bills, TV bills, school fees and any other bills using your GNC

The project will be completed in 3 phases. After fully completion and implementation of the project, the coin will have good market price and be among top coins in the crypto market.

Now I'll go ahead by telling you about the benefits you will get investing or buying GNC

## MONTHLY PAYMENT SYSTEM

This is one of the first ever things happening in the crypto world. The monthly payment system is a system in which GNC holders will be paid monthly for holding their coins in their wallets. With this system, we can accomplish our vision statement of supporting our investors financially as well ensuring the liquidity and solidity of our token. In order to qualify for the monthly payment, one must hold at least 10000GNC or more in his/her wallet every month in order to receive payments monthly.

NB: The more GNC you hold, the more dollars you receive as payment

Payment will be made in GNC, eth, btc or Momo

## THE GNC MALL

This will be any online shopping mall like Jumia and other online mall you know but with GNC mall you can buy and pay with 100% GNC at a discount price on all products.
